6. If no public hearing is scheduled, provide instructions on how to demand a public hearing:

7. Explain Reason For Proposed Rule(s):

The Board has proposed adoption of a rule (21 NCAC 46 .1822) that would permit a pharmacy to deliver prescriptions that have been fully filled and labeled for specific patients by having certain pharmacy personnel deliver them at a fixed alternate delivery site. This rule change was originally proposed by pharmacist as a method of facilitating service to remote locations that cannot support a pharmacy. This method has recently been used successfully in Virginia with no adverse impact to the public health, safety and welfare. The requirements of the proposed rule largely track the requirements for direct-to-patient locker and kiosk systems (21 NCAC 46 .1821), which the Board adopted in 2023. There are proposed conforming changes to (a) the limited service permit rule (21 NCAC 46 .1616) to provide for permitting and inspection of the alternate delivery site; (b) the direct-to-patient delivery system rule (21 NCAC 46 .1821) to acknowledge the new rule; and (c) the pharmacy emergency closure rule (21 NCAC 46 .2516) to provide for delivery of filled prescriptions to a pharmacy’s nearby alternate delivery site if the pharmacy is subject to emergency closure, so that patients can have the choice to retrieve drugs during that closure.

8. Procedure for Subjecting a Proposed Rule to Legislative Review: If an objection is not resolved prior to the adoption of the rule, a person may also submit written objections to the Rules Review Commission. If the Rules Review Commission receives written and signed objections in accordance with G.S. 150B-21.3(b2) from 10 or more persons clearly requesting review by the legislature and the Rules Review Commission approves the rule, the rule will become effective as provided in G.S. 150B-21.3(b1). The Commission will receive written objections until 5:00 p.m. on the day following the day the Commission approves the rule. The Commission will receive those objections by mail, delivery service, hand delivery, or email. If you have any further questions concerning the submission of objections to the Commission, please call a Commission staff attorney at 984-236-1850.

Rule(s) is automatically subject to legislative review. Cite statutory reference:

Date: 03/17/2026

1 21 NCAC 46 .1616 is proposed for amendment as follows:

2
3 **21 NCAC 46 .1616 LIMITED SERVICE PERMITS**

4 (a) The following pharmacy practice locations are eligible to apply for "limited service permits," which are pharmacy
5 locations whose operations are modified by the provisions set forth in Paragraphs (b), (c), and (d) of this Rule:

- 6 (1) auxiliary medication inventories permitted and operating in health care facilities pursuant to Rule
7 .1414(d) of this Chapter;
- 8 (2) automated dispensing or drug supply devices permitted and operating in health care facilities
9 pursuant to Rule .1419 of this Chapter;
- 10 (3) direct to patient systems that are not located at the home pharmacy's facility pursuant to Rule .1821
11 of this Chapter;
- 12 (4) alternate delivery sites pursuant to Rule .1822 of this Chapter;
- 13 ~~(4)(5)~~ facilities where drugs are dispensed only by nurse practitioners or physician assistants pursuant to
14 Section .1700 of this Chapter;
- 15 ~~(5)(6)~~ county health departments or other governmental entities providing local health services under G.S.
16 130A-34 where drugs are dispensed only by registered nurses and only pursuant to G.S. 90-85.34A
17 and Section .2400 of this Chapter;
- 18 ~~(6)(7)~~ county health departments or other governmental entities providing local health services under G.S.
19 130A-34 that engage in dispensing beyond that set out in G.S. 90-85.34A and Section .2400 of this
20 Chapter;
- 21 ~~(7)(8)~~ free clinics, as defined in G.S. 90-85.44(a)(6); or
- 22 ~~(8)(9)~~ critical access hospitals, as defined in G.S. 131E-76.

23 (b) A pharmacist-manager for a limited service permit may designate one assistant pharmacist-manager but is not
24 required to do so. The assistant pharmacist-manager shall be responsible for exercising all of the responsibilities of a
25 pharmacist-manager when the assistant pharmacist-manager is present and the pharmacist-manager is not present at
26 the location holding the limited service permit. If the pharmacist-manager chooses to designate an assistant
27 pharmacist-manager, the pharmacist-manager shall notify the Board on the limited service permit application, if an
28 assistant pharmacist-manager is desired at that time. If a designation is made or changed after the limited service
29 permit application is filed, the pharmacist-manager shall notify the Board, in writing, within 15 days of any change in
30 the designation. Notwithstanding the pharmacist-manager's designation of an assistant pharmacist-manager, the
31 pharmacist-manager shall be responsible for ensuring the pharmacy's compliance with all statutes, rules, and standards
32 at all times.

33 (c) For limited service permits, the pharmacist-manager attendance requirements set out in Rule .2502(b) of this
34 Chapter are modified only as set forth herein:

- 35 (1) For limited service permits described in Subparagraphs (a)(1), (2), (3), and (4) ~~(2) and (3)~~ of this
36 Rule, either the pharmacist-manager or the assistant pharmacist-manager shall perform an in-person,
37 on-site visit at least once per calendar quarter to inspect the location holding the permit, review the

1 operations of the location holding the permit with the persons involved in accessing them as
2 permitted by the rules referenced in Subparagraphs (a)(1), (2), (3), and (4) ~~and (3)~~ of this Rule, and
3 ensure that the location holding the permit is operated in compliance with all applicable State and
4 federal laws.

5 (2) For limited service permits described in Subparagraphs (a)(5) and (6) ~~(a)(4) and (5)~~ of this Rule,
6 either the pharmacist-manager or the assistant pharmacist-manager shall perform an in-person, on-
7 site visit at least once per week to inspect the location holding the permit, review the operations of
8 the location holding the permit with the persons involved in dispensing, and ensure that the location
9 holding the permit is operated in compliance with all applicable State and federal laws.

10 (3) For limited service permits described in Subparagraphs (a)(7), (8), and (9) ~~(a)(6), (7) and (8)~~ of this
11 Rule, either the pharmacist-manager or the assistant pharmacist-manager employed or otherwise
12 engaged to supply pharmaceutical services may have a flexible schedule of attendance but shall be
13 present for at least one-half of the hours the pharmacy is open or 20 hours a week, whichever is less.
14 For the limited service permits described in Subparagraphs (a)(7) and (8) ~~(a)(5) and (6)~~ of this Rule,
15 a licensed pharmacist shall be present when the pharmacy is open as described in Rule .2502(e) of
16 this Chapter. For the limited service permits described in Subparagraph (a)(9) ~~(a)(7)~~ of this Rule,
17 the location holding the limited service permit may operate in the absence of a pharmacist only as
18 set out in Rule .1413 of this Chapter.

19 (4) The limited service permit holder may name a temporary pharmacist-manager or assistant
20 pharmacist-manager for a period not to exceed 90 days from the departure date of the previous
21 pharmacist-manager or assistant pharmacist-manager. The temporary pharmacist-manager or
22 assistant pharmacist-manager shall accept the responsibilities of that position and shall be present
23 as set forth in this Rule. A location holding a limited service permit may not operate for a period of
24 more than 30 days without a pharmacist employed or otherwise engaged as a permanent or
25 temporary pharmacist-manager who has signed the permit for that pharmacy.

26 (d) A person may serve as the pharmacist-manager or the assistant pharmacist-manager for multiple limited service
27 permits, and may do so while also serving as the pharmacist-manager for a maximum of one permit other than a
28 limited service permit. A person serving multiple limited service permit locations must fulfill all of that person's duties
29 under State and federal law as to each location.

30 (e) Except as expressly set forth in this Rule, the pharmacist-manager must provide oversight and supervision as
31 provided elsewhere in this Chapter.

33 *History Note: Authority G.S. 90-18.1(c); 90-18.2; 90-85.6; 90-85.21; 90-85.32; 90-85.33; 90-85.34;*

34 *Eff. November 1, 2021;*

35 *Amended Eff. September 1, 2023; August 1, 2026.*

1 21 NCAC 46 .1821 is proposed for amendment as follows:

2
3 **21 NCAC 46 .1821 DIRECT-TO-PATIENT DELIVERY SYSTEMS**

4 (a) This Rule sets out the requirements under which pharmacies may utilize "direct-to-patient" or ("DTP") delivery
5 systems for dispensing in the State of North Carolina.

6 (b) Definitions.

7 (1) "Direct to patient system" or "DTP system" means any delivery system through which a pharmacy
8 dispenses drugs, devices or medical equipment to a patient through any means other than:

9 (A) in-person dispensing to a patient by pharmacy personnel inside a pharmacy,

10 (B) in-person dispensing by delivery to a patient's ~~residence~~ residence, to a health care
11 provider treating that patient, or at an alternate delivery site governed by Rule .1822 of this
12 Section,

13 (C) shipping through common carrier to a patient or to a health care provider treating that
14 patient, or

15 (D) the use of an automated dispensing device by a health care facility pharmacy that is
16 governed by Rule .1419 of this Chapter.

17 Except as provided in this Rule or one of the exceptions set out in Parts (A)-(D) of this
18 Subparagraph, no person holding any license or permit from the Board shall participate in any
19 arrangement whereby prescriptions may be left at, picked up from, accepted by, or delivered to any
20 other place. The only DTP systems allowed are "lockers" and "kiosks" as defined herein.

21 (2) The "home pharmacy" means the pharmacy responsible for dispensing drugs, devices or medical
22 equipment through a DTP system.

23 (3) A "locker" means a secure container in which pharmacy personnel place labeled patient-specific
24 drugs, devices, or medical equipment to be picked up by the patient.

25 (4) A "kiosk" means an automated system that is capable of filling, labeling, and dispensing drugs,
26 devices, or medical equipment to be dispensed to a patient.

27 (c) Any DTP system located within the State of North Carolina (whether a locker or a kiosk) shall meet the following
28 requirements:

29 (1) Before any drugs, devices, or medical equipment may be dispensed from a DTP system, the home
30 pharmacy shall have been issued a pharmacy permit by the Board pursuant to G.S. 90-85.21 or 90-
31 85.21A. In addition, before any drugs, devices, or medical equipment may be dispensed from the
32 DTP system, the DTP system shall hold a limited service permit under Rule .1616 of this Section if
33 it is not located at the home pharmacy's permitted facility.

34 (2) The home pharmacy shall notify the Board, in writing, through the home pharmacy's online permit
35 portal, prior to beginning to use any DTP system, including the address and geographical
36 coordinates of the DTP system and the licensed pharmacist(s) responsible for the DTP system. The
37 home pharmacy shall notify the Board prior to moving the DTP system and shall secure a new

1 limited service permit, if one is required by Subparagraph (c)(1) of this Rule, before operating the
2 DTP system in the new location. The home pharmacy shall notify the Board within 10 days after
3 discontinuing patient use of any DTP system.

- 4 (3) A DTP system shall be used exclusively by the home pharmacy.
- 5 (4) Any DTP system shall be 60 miles or fewer from the home pharmacy (via the shortest surface street
6 route).
- 7 (5) A DTP system may be placed in the office of a prescriber only if the DTP system is under the control
8 of the home pharmacy, which is responsible for compliance with all laws regarding the DTP system.
9 The home pharmacy shall maintain the DTP system in the prescriber's office only if the prescriber
10 offers patients a choice of pharmacy. The home pharmacy shall not give compensation to or receive
11 compensation from the prescriber for the placement of the DTP system or for any prescriptions filled
12 by the DTP system.
- 13 (6) The home pharmacy shall prohibit access to the DTP system and its contents by unauthorized
14 personnel and maintain confidentiality of patient information. The DTP system shall be under the
15 continuous supervision of a pharmacist employed by the home pharmacy, which may be satisfied
16 by real-time remote supervision of the pharmacy through video and audio connections.
- 17 (7) The DTP system shall display the home pharmacy's name, address, phone number, North Carolina
18 permit number, and the name of the home pharmacy's pharmacist-manager, as well as (where
19 applicable) the limited service permit number for the DTP system and the name of the limited service
20 permit's pharmacist-manager and assistant pharmacist-manager, if any.
- 21 (8) The home pharmacy shall ensure that there is continuous, recorded video surveillance of the DTP
22 system and any persons using or accessing the DTP system. It shall maintain any recordings for a
23 minimum of 90 days.
- 24 (9) The home pharmacy shall develop, maintain, and follow a manual of policies and procedures that
25 includes policies and procedures for:
- 26 (A) Maintaining the security of the DTP system and the drugs, devices, and medical equipment
27 within the DTP system.
- 28 (B) Determining and applying criteria regarding which drugs, devices, and medical equipment
29 are appropriate for placement in the DTP system and which patients are eligible to use the
30 DTP system.
- 31 (C) Maintaining any drugs, devices, and medical equipment at temperatures, humidities and
32 other environmental conditions to ensure that they do not become adulterated under G.S.
33 106-133 and to ensure that they are transported and stored in accordance with
34 manufacturer's specifications, if any, for those items.
- 35 (D) Removing outdated drugs, devices, and medical equipment from the DTP system as set
36 forth in Subparagraph (c)(11) of this Rule on a regular basis so that patients do not receive

1 drugs, devices, and medical equipment with a beyond use date during the period when the
2 patient is to use the item.

3 (E) Describing the assignment of responsibilities to, and training of, pharmacy personnel
4 regarding the maintenance and filling procedures for the DTP system.

5 (F) Orienting participating patients on use of the DTP system; notifying patients when
6 expected drugs, devices, or medical equipment are not available in the DTP system or when
7 the DTP system is not functioning and notifying them of alternate methods for having those
8 prescriptions filled; and ensuring that patient use of the DTP system does not interfere with
9 the delivery of drugs, devices, and medical equipment to patients.

10 (G) Inspecting the DTP system during each required inspection.

11 This written manual of policies and procedures shall be reviewed and updated annually.

12 (10) The home pharmacy shall comply with any federal and state controlled substance laws and rules,
13 including but not limited to registrations that may be required for any DTP systems, before any
14 controlled substances are dispensed from any DTP systems. The home pharmacy shall comply with
15 G.S. 90-106.1 in dispensing any drugs covered by that statute from a DTP system, and shall visually
16 confirm that the person seeking the dispensation is the same as the person on the photographic
17 identification provided.

18 (11) Only pharmacy personnel who are licensed with this Board as pharmacists or registered with this
19 Board as technicians or pharmacy interns may stock drugs, devices, and medical equipment in, or
20 remove drugs, devices, and medical equipment from, the inventory of a DTP system. The home
21 pharmacy shall maintain records of any access to the DTP system by pharmacy personnel stocking
22 or otherwise accessing the DTP system.

23 (12) Before a home pharmacy dispenses drugs, devices and medical equipment to a patient through a
24 DTP system, the home pharmacy shall secure the affirmative consent of the patient to use the DTP
25 system.

26 (13) The dispensing pharmacist on any drugs, devices, or medical equipment dispensed from a DTP
27 system in the State of North Carolina shall be licensed with this Board.

28 (14) Before a prescription is dispensed from the DTP system, the dispensing pharmacist at the home
29 pharmacy shall verify each prescription and shall conduct a drug utilization review and otherwise
30 assure that the drug, device, or medical equipment may safely be dispensed to the patient.

31 (15) The labels of any drugs, devices, and medical equipment dispensed from a DTP system shall be
32 labeled for the individual patient and contain all information required by law, including but not
33 limited to having the dispensing pharmacist identified on the label.

34 (16) The home pharmacy shall create and maintain records of dispensing for any drugs, devices, and
35 medical equipment dispensed in a DTP system in compliance with State and federal law. Any kiosk
36 shall be connected to the home pharmacy's automated data processing system, and any drugs,
37 devices, or medical equipment dispensed from any locker shall be recorded in the home pharmacy's

1 recordkeeping system. The recordkeeping system shall be capable of producing a record of all drugs,
2 devices, and medical equipment dispensed from the DTP system.

3 (17) The DTP system shall have a means to identify each patient (or that patient's authorized agent) and
4 release only that patient's prescription drugs, devices, or medical equipment to the patient (or the
5 patient's authorized agent).

6 (18) The DTP system shall convey the home pharmacy's offer to counsel a patient as required by Rule
7 .2504 of this Chapter and shall provide the ability for the patient to have an immediate real-time
8 consultation with a pharmacist licensed by this Board and employed by the home pharmacy who
9 has access to all of the home pharmacy's information related to the patient. The communication link
10 shall protect the confidentiality of the patient's information. The home pharmacy shall check the
11 communication link at least daily and the DTP system shall be closed if the link malfunctions or if
12 a licensed pharmacist is not available from the home pharmacy for counseling, unless a licensed
13 pharmacist is physically present at the DTP system. A pharmacist who is responsible for counseling
14 may not provide that service for more than three sites simultaneously. In the event that the DTP
15 system is placed in the same physical space as the dispensing area of the home pharmacy, this
16 provision may be satisfied during the time that the pharmacy is open by informing the patient how
17 to receive counseling from a pharmacist in the home pharmacy. If the dispensing pharmacist has
18 determined that the patient should receive counseling before the prescription is dispensed, the DTP
19 system shall provide the ability for the pharmacist to force counseling before the DTP system
20 dispenses the drug, device, or medical equipment.

21 (19) The home pharmacy shall record and review any incident involving a complaint, delivery error, or
22 omission regarding a DTP as part of the home pharmacy's quality assurance program.

23 (20) Drugs, devices, or medical equipment that are not picked up by a patient may be returned to stock
24 under the same conditions as if the item had been maintained in the pharmacy, as long as the
25 requirements of this Rule for operating the DTP system have been followed.

26 (d) With respect to drugs, devices, or medical equipment dispensed through a kiosk, the following additional
27 requirements shall be met:

28 (1) The dispensing pharmacist shall electronically compare via video link the stock bottle, drug
29 dispensed, the strength, and the beyond-use date. The dispensing pharmacist shall verify the entire
30 label for accuracy on the video link.

31 (2) The kiosk shall utilize a barcode system that prints the barcode of the stock bottle or other packaging
32 on the label of the dispensed drug, device, or medical equipment. If the stock bottle or other
33 packaging does not have a barcode, the home pharmacy shall create one. Pharmacy personnel shall
34 scan both the stock bottle or other packaging and the label of the dispensed drug, device, or medical
35 equipment to verify that the item dispensed is the same as the one in the stock bottle or other
36 packaging for each prescription dispensed.

1 (3) Drugs, devices, or medical equipment dispensed by the kiosk shall be packaged only by a licensed
2 manufacturer or repackager, or prepackaged by the home pharmacy in compliance with the
3 Pharmacy Practice Act and this Chapter.

4 (4) The home pharmacy shall keep a perpetual inventory of controlled substances that are received and
5 dispensed from each kiosk.

6 (5) The home pharmacy shall not dispense compounded medications through a kiosk.

7 (6) The kiosk shall not accept returns of drugs, devices and medical equipment from patients.

8 (e) This Rule does not alter the method by which patients or providers shall transmit prescriptions to the home
9 pharmacy. Prescriptions may not be collected by the home pharmacy through the DTP system.

10

11 *History Note: Authority G.S. 90-85.6; 90-85.15A; 90-85.21; 90-85.32;*

12 *Eff. September 1, 2023. 2023;*

13 *Amended Eff. August 1, 2026.*

1 21 NCAC 46 .1822 is proposed for adoption as follows:

2
3 **21 NCAC 46 .1822 ALTERNATE DELIVERY SITES**

4 (a) This Rule sets out the requirements under which pharmacies may utilize alternate delivery sites for delivery of
5 drugs, devices, or medical equipment or for receipt of prescriptions in the State of North Carolina.

6 (b) Before any drugs, devices, or medical equipment may be delivered at an alternate delivery site, the pharmacy shall
7 have been issued a pharmacy permit by the Board pursuant to G.S. 90-85.21 or G.S. 90-85.21A, and the alternate
8 delivery site shall have been issued a limited service permit under Rule .1616 of this Chapter. The limited service
9 permit shall be granted only if, and so long as, compliance with all requirements for of this Rule can be reasonably
10 assured.

11 (c) Location.

12 (1) An alternate delivery site shall be within the State of North Carolina and 60 miles or fewer from the
13 pharmacy (via the shortest surface street route).

14 (2) An alternate delivery site may not be located in the same building or on the same property as the
15 pharmacy or any pharmacy under common ownership.

16 (3) An alternate delivery site may be placed in the office of a prescriber only if the alternate delivery
17 site is under the control of the pharmacy, which is responsible for compliance with all laws regarding
18 the alternate delivery site, and only if the alternate delivery site is staffed with pharmacy personnel,
19 as set forth herein. The pharmacy shall maintain the alternate delivery site in the prescriber's office
20 only if the prescriber offers patients a choice of pharmacy. The pharmacy shall not give
21 compensation to or receive compensation from the prescriber for the placement of the alternate
22 delivery site or for any prescriptions delivered at the alternate delivery site.

23 (4) An alternate delivery site may not be located on residential property.

24 (5) The pharmacy shall notify the Board within 10 days after discontinuing patient use of any alternate
25 delivery site.

26 (d) Staffing and Management.

27 (1) When the alternate delivery site is open, it must be continuously staffed by a pharmacist or certified
28 pharmacy technician who is an employee of the pharmacy.

29 (2) The alternate delivery site shall be used exclusively by the one pharmacy whose pharmacist-
30 manager is responsible for the alternate delivery site's operation.

31 (3) The dispensing pharmacist for any drugs, devices, or medical equipment delivered to an alternate
32 delivery site shall be employed by the pharmacy and licensed with this Board.

33 (4) At all times that the alternate delivery site is open, a pharmacist employed by the pharmacy must be
34 available for counseling, as set forth in this Rule, and for consultation with the staff of the alternate
35 delivery site.

36 (5) All staff at the alternate delivery site shall wear identification badges as set forth in G.S. 90-640.

37 (e) Services Limited to Prescription Pickup and Drop Off for the Pharmacy.

1 (1) At the alternate delivery site, a pharmacist or a certified technician employed by the pharmacy may
2 personally deliver any drug, device, or medical equipment to the patient or the patient’s agent, after
3 that drug, device or medical equipment has been previously dispensed by the pharmacy. All
4 physical steps in the dispensing process (other than delivery to the patient) must occur at the
5 pharmacy, including but not limited to filling and patient-specific labeling. No drugs, devices or
6 medical equipment may be maintained at the alternate delivery site, other than completed patient-
7 specific labeled and previously dispensed drugs, devices, or medical equipment that have been
8 transported from the pharmacy to the alternate delivery site to be delivered.

9 (2) At the alternate delivery site, a pharmacist or certified pharmacy technician who is an employee of
10 the pharmacy may personally accept a written prescription from the patient or the patient’s agent,
11 so long as the prescription is then transmitted to the pharmacy so that all physical steps in the
12 dispensing process may take place in the pharmacy. Patients or their agents may not leave
13 prescriptions at the alternate delivery site, other than by personally delivering them to the pharmacist
14 or certified pharmacy technician.

15 (f) Requirements for Use of Alternate Delivery Site.

16 (1) Before a pharmacy delivers drugs, devices, or medical equipment to a patient at an alternate delivery
17 site, the pharmacy shall secure the affirmative consent of the patient to use the alternate delivery
18 site. The pharmacy shall not require patients to pick up their prescriptions from an alternate delivery
19 site, rather than at the pharmacy or through delivery mechanisms otherwise available at the
20 pharmacy.

21 (2) To ensure appropriate coordination of patient care, the pharmacy shall notify the alternate delivery
22 site of the anticipated arrival time of the transportation of the drug, device, or medical equipment to
23 the alternate delivery site, the name of the patient for whom the drug, device or medical equipment
24 was dispensed, and any special storage requirements.

25 (3) The hours of the alternate delivery site shall be reported to the Board, and the alternate delivery site
26 shall be open during the hours that have been reported to the Board. Emergency closure of the
27 alternate delivery site shall require the pharmacist-manager of the pharmacy to follow the
28 procedures in Rule .2516 of this Chapter.

29 (4) The pharmacist or certified pharmacy technician at the alternate delivery site shall convey the
30 pharmacy's offer to counsel a patient as required by Rule .2504 of this Chapter and shall provide the
31 ability for the patient to have an immediate real-time consultation with a pharmacist licensed by this
32 Board and employed by the pharmacy who has access to all of the pharmacy's information related
33 to the patient. The communication link shall protect the confidentiality of the patient's information.
34 A pharmacist who is responsible for counseling may not provide that service for more than three
35 limited service permits simultaneously. A certified pharmacy technician staffing an alternate
36 delivery site may not perform counseling of any sort.

1 (5) The alternate delivery site shall have real-time access to the pharmacy's information system and
2 shall comply with all recordkeeping requirements for drugs, devices, and medical equipment
3 delivered at the site.

4 (6) The pharmacist or certified pharmacy technician delivering drugs, devices, or medical equipment
5 has the authority conferred by Rule .1817 of this Section with respect to proof of identification.

6 (7) Controlled substances may be delivered to an alternate delivery site only if permitted by state and
7 federal controlled substances laws. If permitted, both the pharmacy and alternate delivery site shall
8 comply with any federal and state controlled substance laws and rules, including but not limited to
9 receiving any registrations that may be required for any alternate delivery site, before any controlled
10 substances are delivered to any alternate delivery site. The pharmacist or certified pharmacy
11 technician delivering drugs at the alternate delivery site must comply with G.S. 90-106.1 in
12 delivering any drugs covered by that statute from an alternate delivery site and shall visually confirm
13 that the person seeking the delivery is the same as the person on the photographic identification
14 provided.

15 (8) The pharmacy shall retrieve any drugs, devices, or medical equipment not delivered to the patient
16 within one week of being delivered to the alternate delivery site.

17 (9) Drugs, devices, or medical equipment that are not picked up by a patient may be returned to stock
18 under the same conditions as if the item had been maintained in the pharmacy, as long as the
19 requirements of this Rule for operating the alternate delivery site have been followed and the drugs,
20 devices or medical equipment can be returned to stock consistent with the public health, safety and
21 welfare.

22 (g) Safety and Security.

23 (1) The pharmacist-manager shall not deliver drugs, devices, or medical equipment to or at the alternate
24 delivery site unless the pharmacist-manager is satisfied that drugs, devices or medical equipment
25 may be as safely and effectively stored and delivered at the alternate delivery site as in the pharmacy
26 itself.

27 (2) Drugs, devices, or medical equipment delivered to the alternate delivery site shall be stored in a
28 lockable room or lockable cabinet or other irremovable device. The lockable storage must remain
29 locked at all times except when a drug, device, or medical equipment is being actively removed
30 from storage. If prescriptions require special storage, such as refrigeration, those storage devices
31 must be similarly secured. Access shall be restricted to the pharmacist or certified pharmacy
32 technician who is personally delivering the prescriptions.

33 (3) The pharmacy shall ensure the transportation and storage of any drugs, devices, and medical
34 equipment at temperatures, humidities, and other environmental conditions to ensure that they do
35 not become adulterated under G.S. 106-133 and to ensure that they are transported and stored in
36 accordance with manufacturer's specifications, if any, for those items.

1 (4) The pharmacy shall ensure that there is continuous, recorded video surveillance of the storage and
2 delivery of drugs, devices, and medical equipment at the alternate delivery site. It shall maintain any
3 recordings for a minimum of 90 days.

4 (h) Policies and Procedures: The pharmacy must develop and implement written policies and procedures to ensure
5 that the requirements of the Pharmacy Practice Act and its regulations are complied with at the alternate delivery site.
6 These shall include:

7 (1) Tracking and maintaining the security of delivery of drugs, devices, and medical equipment between
8 the pharmacy and the alternate delivery site.

9 (2) Maintaining the security of the alternate delivery site and the drugs, devices, and medical equipment
10 at the alternate delivery site.

11 (3) Transporting and maintaining any drugs, devices, and medical equipment in the appropriate
12 environmental conditions.

13 (4) Describing the assignment of responsibilities to, and training of, pharmacy personnel regarding the
14 transportation, storage, and delivery procedures for the alternate delivery site.

15 (5) Offering to counsel and providing counseling at the alternate delivery site, including keeping records
16 of offers to counsel.

17 (6) Orienting participating patients on use of the alternate delivery site; notifying patients when their
18 dispensed prescription will be available at the alternate delivery site; and ensuring that use of the
19 alternate delivery site does not interfere with the delivery of drugs, devices, and medical equipment
20 to patients.

21 (7) Keeping records of the delivery of drugs, devices, and medical equipment to patients at the
22 alternative delivery site.

23 (8) Returning to the pharmacy any drugs, devices, or medical equipment that are not delivered to the
24 patient.

25 (9) Assuring confidentiality of patient information.

26 (10) Inspecting the alternate delivery site during each required inspection.

27 This written manual of policies and procedures shall be maintained both in the pharmacy and at the alternate delivery
28 site. The manual shall be reviewed and updated annually.

29 (i) The pharmacy shall record and review any incident involving a complaint, delivery error, or omission regarding
30 an alternate delivery site as part of the pharmacy's quality assurance program.

31 (j) This Rule does not prohibit the use of other delivery methods set forth in Rule .1821(b)(1) of this Section, which
32 are exclusive.

35 Eff. August 1, 2026.

1 21 NCAC 46 .2516 is proposed for amendment as follows:

2
3 **21 NCAC 46 .2516 EMERGENCY CLOSURE**

4 (a) The pharmacist-manager of a pharmacy has the responsibility and authority to cease some or all of the pharmacy
5 operations when doing so is necessary to fill the pharmacist-manager's responsibility (a) for the safe, lawful and secure
6 receipt of prescription orders and delivery of prescription drugs under Rule .1804(a) of this Chapter, or (b) to ensure
7 that adequate qualified personnel are in place to properly render pharmaceutical service in compliance with state and
8 federal law under Rule .1601(a)(1) of this Chapter.

9 (b) In the event that a pharmacist-manager anticipates that a pharmacy will be closed for more than two hours, either
10 to receive prescription orders or to dispense prescription drugs, during the regular hours that it has posted that it is
11 open under Rule .1601(a)(2) of this Chapter, the pharmacist-manager shall take the following actions before closing:

12 (1) Post a notice in a location conspicuous to the public of (a) which services the pharmacy has ceased
13 providing, and (b) the date and time that the pharmacist-manager anticipates that the pharmacy will
14 resume providing those services. The pharmacist-manager shall change the posted notice in the
15 event that the pharmacist-manager determines that it is no longer accurate.

16 (2) Send an e-mail to emergencyclosure@ncbop.org with the information provided in Paragraph (b)(1)
17 of this Rule, including any changes to the required notice.

18 (3) If the pharmacy will not be dispensing prescription drugs during the closure, take each of the
19 following actions and post a notice in a location conspicuous to the public of the actions taken:

20 (A) If the pharmacy maintains an alternate delivery site within 10 miles of the pharmacy (via
21 the shortest surface street route), the pharmacy shall deliver any prescription drugs that
22 have been filled but not delivered to the alternate delivery site and shall notify patients that
23 prescriptions will be available at that alternate delivery site during the emergency closure.
24 Immediately upon the end of the emergency closure, the pharmacy shall retrieve any drugs
25 delivered to the alternate delivery site pursuant to this Subparagraph.

26 (B) ~~Offer to transfer any prescriptions at the patient's request during any time when the~~
27 ~~pharmacy is not dispensing prescription drugs and notify post a notice in a location~~
28 ~~eonspicious to the public notify~~ of the process for having those prescriptions transferred.
29 This includes prescriptions that have been filled but not delivered before the pharmacy is
30 closed. However, the pharmacy is not required to transfer prescriptions at any time at which
31 there is no pharmacist or certified technician who is able to transfer prescriptions. For the
32 purposes of this rule, a pharmacist or certified technician is able to transfer prescriptions if
33 that person either: (i) is present at the pharmacy, or (ii) has remote access to the pharmacy's
34 systems, either because that person is employed by the pharmacy, or employed by a
35 pharmacy with a remote medication order processing services arrangement with the closed
36 pharmacy under Rule .1816 of this Section.

37 (A) ~~is present at the pharmacy, or~~

1 ~~(B) — has remote access to the pharmacy's systems, either because that person is employed by~~
2 ~~the pharmacy, or employed by a pharmacy with a remote medication order processing~~
3 ~~services arrangement with the closed pharmacy under Rule .1816 of this Section.~~

4 (c) In the event that the pharmacist-manager is unable to exercise the authority in this Rule, a pharmacist who is on
5 duty at the pharmacy has the responsibility and authority set out in Paragraph (a) of this Rule if the pharmacist follows
6 the procedures set out in Paragraph (b) of this Rule.

7 (d) This Rule does not apply in the following circumstances:

- 8 (1) Permanent closures or temporary closures lasting more than 14 consecutive days, which are instead
9 governed by the provisions of Rule .2502(h) and (i) of this Section;
- 10 (2) Pharmacies located outside the State of North Carolina, which should follow any closure rules of
11 their home states; or
- 12 (3) During the duration of time when the Governor or any county or municipality has declared a state
13 of emergency in the pharmacy's location pursuant to Chapter 166A of the North Carolina General
14 Statutes.

15 (e) In the event that the either (a) the pharmacist-manager suffers an emergency that renders the pharmacist-manager
16 unable to exercise the responsibilities in Paragraph (b) of this Rule, or (b) the pharmacist-manager is unavailable and
17 the only pharmacist(s) on duty suffers an emergency that renders the pharmacist unable to exercise the responsibilities
18 in Paragraph (b) of this Rule, the exercise of the responsibilities in Paragraph (b) of this Rule shall be excused until
19 such time as an employee authorized by the pharmacist-manager or permit holder can exercise those responsibilities.
